SAFARI ACADEMY

DISCOVERY SESSIONS - KEY STAGE ONE

We offer enriching, curriculum-linked sessions designed to enhance and consolidate children's learning. These hands-on sessions are brought to life with activities relating to the natural world using bio-facts (skulls, skins and stuffed specimens), and up to three live animals. Functional skills are embedded throughout our sessions.

Detailed below are the exciting range of education lessons that we offer Key Stage 1 students. All lessons last 45 minutes.

Discover Dinosaurs

Stomp, crash, RRRAGH! Watch out everyone - the dinosaurs are on the prowl! Join us on a journey through time and delve into this fascinating pre-historic world to learn about the different types of creatures that existed 65 million years ago. This is a great start to a dinosaur learning experience; children will especially enjoy having a closer look at some of our smaller, friendly animals and artefacts - can they spot the dinosaur similarities?!

Year 1 & 2 History. Year 1 & 2 Geography. Year 1 Science: Animals, including humans. Year 2 Science: Living things and their habitats.

Animal Homes

Knock knock! Who's there? This is an opportunity for students to explore which animals live where and why. Students will discover how different habitats provide basic requirements to different kinds of plants and animals. The students will be inspired to think about hot regions, cold regions and their very own back garden whilst meeting some of our animals!

Year 1 Science: Animals, including humans. Year 2 Science: Living things and their habitats

Roots and Shoots

Let's grow! A crispy carrot, a luscious lettuce or a tasty tomato. Plants are amazing! They provide homes, food and the air that we breathe! Unearth what makes plants grow and learn about the exciting variety that exist and why we must protect them.

Year 1 Science: Plants & Seasonal Changes. Year 2 Science: Plants.

Minibeasts and Me

On your belly, legs at the ready, it's time to wriggle and crawl! Lets go minibeast hunting!! Students have to search and identify our minibeasts using their very own explorer kits! Promoting wonder and excitement for the world's invertebrates, this session will encourage students to appreciate the mini world around them.

Year 1 Science: Animals, including humans. Year 2 Science: Living things and their habitats

Who Eats Who?

Feeling peckish? Let's jump aboard the food chain! Learn about who eats who and how! Explore the world of producers, prey and predators. We will discover the differences between herbivores, carnivores and omnivores using unique and exciting bio-facts and identify how they link together in food chains.

Year 1 Science: Animals, including humans. Year 2 Science: Living things and their habitats.

Caring for Nature

If you go down to the woods today you're sure of a BIG surprise! Students are introduced to the wonderful world of nature that surrounds them. They will be inspired to conserve the living world both abroad and at home.

Year 1 Science: Animals, including humans. Year 2 Science: Living things and their habitats & animals, including humans.

Circle of Life

How do animals grow and survive? By exploring the life cycles of birds, amphibians, mammals and reptiles, students will be able to learn more about the fascinating process of 'growing up'. This topic includes fun activities and interaction with some live animals.

Year 2 Science: Animals, including humans & plants
