

OUTREACH VISITS

Our artefact boxes are a great way to enrich children's learning and complement a topic that you are teaching at school. The outreaches are brought to life with activities relating to the natural world, bio-facts and conservation. There are a variety of different formats for the outreaches including Safari Stories, Book-a-Box and Amazing Artefacts, to ensure your class gets the best possible experience!

Detailed below are the exciting range of artefact boxes that we offer. If you cannot find what you are looking for please contact us to discuss what other options are available. Outreaches are half-day visits (up to three hours), or full-day visits (up to six hours). Actual box contents may vary depending upon availability.

Safari Stories - EYFS, KS1, KS2

Hiss, roar, swim and soar! Our Safari Stories take children on an interactive adventure through the Animal Kingdom. Combining a variety of craft activities with story-telling, these unique sessions encourage creativity whilst inspiring children to help protect the world around them.

Amazing Artefacts - EYFS, KS1, KS2, KS3, KS4, FE, HE

Our experienced Learning Officers, assisted by our exciting artefacts, will deliver a curriculum-linked session in your own classroom! Our engaging sessions support in-school learning and help to embed functional skills through hands-on activities and interactive games.

Book-A-Box - EYFS, KS1, KS2, KS3, KS4, FE, HE

Got the ideas but need the resources? Book one of our artefact boxes to support your in-school teaching and add that extra spice to your lesson. Our Learning Officers will be nearby to answer any questions.

Book-A-Box and Amazing Artefact sessions last approximately 45 minutes and can be mixed and matched within a half-day or full-day outreach to give your class a truly unique experience!
